**Fiscal Year-End Closing Review Checklist**  
**Frequently Asked Questions**

**1. What is the purpose of the Fiscal Year-End Closing Review Checklist?**

- The primary purpose is to serve as a useful communication and planning tool for year-end closeout purposes. The process enables GT to identify required adjustments and other issues prior to the submission of the Annual Financial Report (AFR).
- The Checklist supports and emphasizes the shared responsibility for managing the Institute's financial resources. It also supports the comprehensive annual audit Representation Letter signed by the President and Executive Vice President.

**2. How will the Checklist be distributed and submitted?**

The Checklist will be distributed first to the finance officer for each primary administrative, academic, and research unit. The primary college or unit level finance officer may then distribute to other finance officers at the school or department level. Given the content, forms are best suited for department or school-level responses.

**3. How should I answer primary and follow-up questions?**

- Primary Questions - All require "Yes" or "No" answers.
- Follow-up Questions - If primary questions are answered with a "Yes," all follow-up questions ("i" range) must be answered with either a "Yes" or "No;" Follow-up sections should be left blank ONLY when the primary question is answered "No."
